I guess check with Sara as to her timing, it would help you if you could wait for her review.

No, it doesn't sound familiar.

I can follow up with Kristi to get the details or can get them from you - whichever you prefer.

I wasn't planning to focus on this until I got Sara's comments, but if you think I should get my review rolling earlier, I can get started on it tomorrow.

Fyi, Sara Laumann in Region 8 just sent me a general conformity determination for a BLM project taking place in Wyoming. The program staff in Region 8 sent the review to Sara and Tom Coda. Sara forwarded it to me because it had been given to Tom. I'm going to review behind Sara early next week. The schedule right now is that we need to have comments back to the Region 8 program staff by February 28.

I wasn't sure how much supervision you wanted to exercise over a project like this. Just let me

know how you'd like to proceed.

Hi Karen

I just received these today for review, and haven't yet looked this over, but wanted to share with you in the event you want to comment along with Tom.

Let me know if you do, comments welcome!
Thanks,

Subject: NPL Project (SW Wyoming- BLM) review of Draft Chapters 2 and 3 - Tim's Preliminary General Conformity Comments

Hi Sara and Tom,

The Wyoming BLM has asked EPA to give a preliminary review of the drafts of Chapters 2 and 3 of the Naturally Pressurized Lance (NPL) project that would be located in southwest Wyoming in the Upper Green River Basin (UGRB) 8-hour (75 ppb) ozone NAAQS nonattainment area. Chris Razzazian was kind enough to extract the relevant general conformity language from the drafts of Chapters 2 and 3 which is provided further below.

Ex. 5 - Attorney Work Product

for reference, the .pdf files of both chapters are provided at the bottom of the email chain). I did prepare draft preliminary comments on the general conformity language and have included my review and those comments in the attached Word file below. In addition,

Ex. 5 - Attorney Client

I would very much appreciate if you folks could review my draft general conformity comments and provide any suggested edits/comments. Realizing that everyone's schedules are likely stacked with other competing requests, could I ask for any comments by Thursday, February 28th? Ken Distler of our NEPA program was able to negotiate an extension from BLM for comments, but to make this revised time frame I need to send comments to Ken by Monday, March 4th.

Hopefully this request can work for both your schedules and thanks in advance for the assistance!

Tim

Subject: Fw: Conformity? - Fw: NPL review of chapter 2 alternative B and Chapter 3 - Tim's Preliminary General Conformity Comments

Hi Chris and Scott,

I have prepared a draft version of my potential comments for the BLM, but did not put them in the comment matrix as I would like feedback/suggestions first. Also, I believe we should run these general conformity comments by Tom Coda (OAQPS) and Sara Lauman (8ORC) before sending them on to BLM. Attached below are my preliminary comments:

<< File: Draft-BLM-NPL-General-Conformity-Comments-TJR-2-15-13.docx >>

Please note, that for my comment #3, that refers to/addresses the permitting of drilling rigs, under **Draft comments for section 3.2.2.2 General Conformity for Ozone**; please see the below attached .pdf file of Encana's "voluntary" drill rig permit:

<< File: 8122per.pdf >>

Please let me know if there are questions and to discuss.

Thanks!

Tim

Hey Tim,

Per my request of a few minutes ago - here is the conformity language pasted out of their draft chapter 2, on page 2-5 and 2-6 (in case this format is too hard to read - as it is for me)

Referred to BLM

Referred to BLM

Here's what they have from Chapter 3, page 3-5

Chris, Attached find Chapters 2 (Alternatives) and 3(existing Conditions) of the preliminary DEIS for the NPL project. We only have 2 weeks for the review. Because of the short review time please limit your comments to more substantive elements (note one special area is general conformity)...Please have your comments back by Feb 20. Thanks.
